EDUCATION

Indiana University - Indianapolis

B.S. in Informatics | Human-Computer Interaction Certificate (In Progress)

Expected Graduation: Dec 2026

TECHNICAL SKILLS

Languages: JavaScript, Python, R, SQL, HTML+CSS, PHP

Frameworks and Libraries: React, [Next.js](#), Tailwind CSS, Node.js

Tools: Git, Tableau, Postman, VSCode, Microsoft 365, Figma

Areas: Data Visualization, Data Analytics, UX Research, HCI, Statistical Modeling, Frontend Development

PROJECTS

European Soccer Analytics Research | RStudio, Statistical Modeling, Data Analysis, Data Visualization

- Analyzed a dataset of 25,000+ European soccer matches to explore tactical and momentum-based performance trends
- Applied statistical modeling and clustering techniques to identify league and team patterns
- Created visualizations to communicate insights and support exploratory analysis
- Presented analytical insights through a formal research report and project presentation

Hotel Booking System API | PHP, Slim Framework, MySQL, REST APIs

- Designed a normalized relational database supporting hotels, rooms, guests, bookings, and amenities
- Developing RESTful API endpoints for hotel reservation and booking management
- Implementing CRUD operations using PHP, MySQL, and Eloquent ORM
- Collaborating within a team environment using Git-based workflows and API design principles

Mental Wellness HCI Research | HCI, UX Research, Accessibility, Prototyping

- Conducted user-centered research focused on stress management and emotional reflection tools
- Developed personas, workflows, and design recommendations based on user needs
- Focused on reducing friction and improving accessibility in wellness-oriented experiences
- Applied human-centered design methods to improve user experience outcomes

Personal Portfolio Website | React, Next.js, Tailwind CSS

- Designed and developed a responsive portfolio website to showcase technical and research projects
- Built reusable UI components and structured multi-page navigation using modern frontend practices
- Implemented responsive layouts optimized for desktop and mobile viewing
- Organized project documentation and demonstrations into a centralized professional portfolio

EXPERIENCE

Draper, Inc. - Manufacturing Factory Employee | Summers 2023–2026

- Assembled, tested, and packaged manufactured products within a collaborative production environment
- Followed quality control procedures to ensure consistency and reliability

Montgomery's Steakhouse - Busser / Dishwasher | June 2020 – May 2021

- Supported restaurant operations through efficient teamwork and time management
- Maintained cleanliness and organization in a fast-paced environment

Activities and Volunteer Work:

Gleaners Food Bank Volunteer • Eagle Creek Park Cleanup Volunteer • Student Council (2 Years)
